

Children's Mercy
PEDIATRIC CARE NETWORK

Integrated health care for Kansas City kids

Our Mission

The mission of Children's Mercy Pediatric Care Network is to improve the health and well-being of children through an integrated pediatric network in the greater Kansas City area that is **value-based, community-focused, patient-centric, and accountable for the quality and cost of care.**

Who We Are

Children's Mercy Pediatric Care Network (CMPCN) is an integrated pediatric network that coordinates the medical care of pediatric patients enrolled in various managed care organizations (MCOs). CMPCN is comprised of Children's Mercy Hospital and its employed physicians, community pediatricians and other health care providers in the Kansas City area. CMPCN contracts with MCOs to provide all medical services for one global fee.

CMPCN uses a team-based approach to reduce barriers, export resources and expertise from Children's Mercy Hospitals and Clinics, and support patient-centered medical homes for the providers in our network.

Ultimately we are focused on better alignment of the payment model and the care delivery model so that the focus can truly be on the **right care, at the right time, in the right setting.**

What We Do

Improve health care delivery by offering:

Simplified administration and reduced fragmentation, including standardized claim submission requirements, payment policies, and credentialing processes.

Better population-based clinical tools and medical home support tools such as Health Information Technology and aggregated data for the pediatric population in the Kansas City area.

Payment system reform: "value based" payment, opportunities for at-risk contracting, sharing savings, and other creative payment models.

Delegated health plan administration, including medical management, provider credentialing, and disease management programs.
